

### **Promoting investments in audiovisual production - cash rebate**

The Republic of Slovenia enables investments in audiovisual production through financial compensation corresponding to 25 percent of eligible costs, used directly for the production of films and audiovisual works by eligible persons over a period of one year in the territory of the Republic of Slovenia.

The right to financial compensation can be exercised for films intended for cinema release and audiovisual works of all kinds intended for media presentation.

When assessing the right to financial compensation, the following conditions will be taken into account:

- cultural significance of the film or audiovisual work for the Republic of Slovenia or other member State of the European Union;
- use of production or post-production facilities in the territory of the Republic of Slovenia;
- participation of contractors from the Republic of Slovenia.
